• arnaumunozbarrera@gmail.com

*I am evolving my full-stack background toward **Data Science**, focusing on extracting value from complex, real-world data systems. Through building scalable backends, data pipelines, and analytics-driven dashboards, I've developed a strong foundation in data modeling and processing. My goal is to deepen my expertise in data analysis, machine learning, and data-driven decision making.*

EXPERIENCE

Energiot Devices S.L. — **Barcelona, Spain**
Software Engineer — *May 2026 – Current*

Energiot Devices S.L. — **Barcelona, Spain**
Full Stack Engineer Intern — *February 2025 – May 2026*

- Designed and developed scalable full-stack services, optimizing data flow and persistence using databases, error management and sessions services / tools, improving data access latency and system reliability.
- Implemented **end-to-end APIs** from scratch for IoT devices, enabling reliable data ingestion, processing, and integration of high-frequency sensor data.
- Built dynamic dashboards and interactive maps to visualize complex datasets, facilitating data-driven decision making and improving user understanding of system behavior.
- Optimized backend architectures to handle growing **data volumes**, focusing on performance, consistency, and scalability in real-time environments.
- Integrated user-centric features with **data analytics foundations**, bridging full-stack development with Data Engineering and Data Science-oriented workflows.

ACADEMIC FORMATION

UNIVERSITAT AUTÒNOMA DE BARCELONA (UAB) — **Barcelona, Spain**
Bachelor's in Computer Engineering — *2022 - 2026*

UNIVERSITAT POLITÈCNICA DE CATALUNYA (UPC) — **Barcelona, Spain**
Master's in Data Science — *2026 - 2028*

HACKATON - UABTHEHACK - PROJECT — **Barcelona, Spain**
Winner — *November 2025*

LANGUAGES

- C1 Certified level: **English**
- Native: **Spanish** & Catalan.
- Beginner: German

RECENT PROJECTS

ML Model - Car Price Prediction, Respository

HACKATON UPC 2026, Respository
